The old railway line from Waterford City to Dungarvan is a spectacular 46km off-road cycling and walking trail which travels through time and nature across eleven bridges, three tall viaducts and a long atmospheric tunnel, all the way from the river to the sea.

Along this route in Ireland's Ancient East is a Viking settlement, Norman Castles, medieval ruins, a famine workhouse, old railway stations and a heritage railway train that still runs along part of the track.
